

Local government reorganisation

Our Place, Our Future

Help shape proposals for local government reorganisation across Hampshire, Southampton, Portsmouth and the Isle of Wight.

Your chance to get involved

We want to keep your council local and accessible to all communities.

Although the government's reforms require larger local authorities, bigger is not always better. The biggest local authority in Britain is failing to collect the bins.

Instead of much larger unitaries, we believe that four mainland authorities for Hampshire keeps the services you value local to you, and protects all that is unique and special about Test Valley.

Make sure you complete the survey and help shape your future and the biggest change to local government in 50 years.
